Dear Jeff,

I could not recommend a prosthetic specialist more highly than Jeff Tyo. Over the past 44 years I have seen a plethora of different prosthetists and I was never 100% satisfied with the care I received. Being relatively new to the Rochester area from Richmond VA, I relentlessly sought consultation with 3 prosthetic providers in Rochester and 4 in Syracuse. After initial visit with Jeff, I knew he was a seasoned professional that would make my care and comfort a top priority.

Jeff has a sincere passion for the outstanding work he does. Never before have I met a prosthetist who loves what he does and truly cares about the outcome of his patients. Jeff has greatly exceeded my expectations. He took a great deal of time in his decision-making process in building a prosthesis that would satisfy my overall lifestyle.

Jeff is extremely compassionate and patient (a definite plus when working with someone such as my self who has a challenging bony stump). In addition, he is exceptionally innovative and took time to explain all of my options. I have no doubt that Jeff will be a part of my prosthetic care for years to come. I am confident he will strive to keep me active and comfortable.

I would recommend Jeff to anyone in New York who is looking for the most talented professional in the prosthetic business. I have great admiration for his work, natural ability and professionalism.

Jeff is the epitome of a well-trained prosthetist with amazing talent. Words cannot express how much I really appreciate everything you have done in creating a prosthetic leg which is a pleasure to wear on a daily basis through all types of weather while engaging in a vast variety of activities.

Jeff, as you continue along your journey this life, please take the opportunity not only to be the absolute best in your chosen occupation but to also celebrate the joy you bring to others. The quality of my life has been greatly enhanced due to your innate talent and effort.

May All Your Travels End in Peace,

Jeffrey Smith
